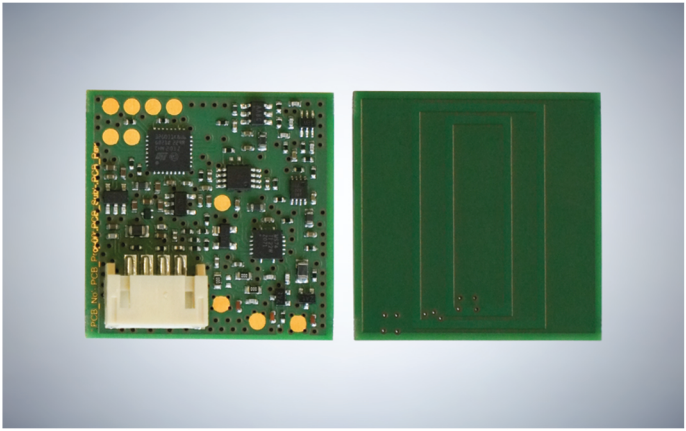
New Product

Capacitive Touch Sensors



EBE's touch sensors are a perfect fit for harsh environments. Thanks to their proprietary compensation technology these touch sensors reliably detect operator input. Even water, dirt, EMC interference or unintentional contact will not prevent secure operation of this sensors.

Technical Specifications

- Easy cleaning due to closed surface
- Dimensions: approx. 30 x 30 mm (1.18 x 1,18 in)
- Function as Switch (typ. Push-Pull)
- Mounting choices glue or tape / Others on request

- Various options available:
  - Programmable LEDs
  - Potential-free industrial contact
  - Optical and/or haptic feedback options
